To register for Group Tennis Lessons or to request more information, please contact:  
Josh Honea: tenniswithjosh@gmail.com - 770-547-8647  

Stormwater affects everything we do!  
When you’re washing your car in the driveway, remember you’re not just washing your car in the driveway! Everything that was making your car dirty is now making our streams dirty!  

The Pollution - Wash Water  
- Wash water that flows into the street and storm drains goes directly to the stream  
- The average driveway carwash uses 116 gallons of water! Most soaps contain phosphates and other chemicals that can be harmful to fish and wildlife  

The Solution – How You Can Help!  
- Take your car to a car wash. Car wash stations recycle the wash water and send the dirty water to the waste water treatment plant  
- Wash your car in the grass so that the water can soak into the ground and help your grass grow  
- Use less water. Use a bucket and rag instead of a pressure washer and put a spray nozzle on the hose so that it shuts off when not needed  
- Use soap sparingly and pour out all wash buckets onto grass, not the curb, street or storm drain  

For more information contact the Stormwater Coordinator at (770)963-4002 X 207.  

Water Safety!  
Don’t rely on lifeguards to watch over your children  
Always wear appropriate sun protection  
- Use a hat or face mask  
- Use sunscreen with an SPF of at least 15  
- Never leave kids or pets unattended in a vehicle  

Beat the Heat!  
- Prolonged exposure to stale heat and damp, choking humidity claims hundreds of lives each year, according to the Centers for Disease Control and Prevention. The CDC reported a total of 7,233 heat-related deaths in the U.S. between the years of 1999-2009. In that time, an average of 658 people died of heat-related causes each year. Whether you’re working or playing outside in the summer, anybody not accustomed to the heat is at risk for a heat-related illness. Take steps to protect yourself:  
  - Wear appropriate clothing, including a wide-brimmed hat  
  - Take frequent water breaks  
  - Apply sunscreen with an SPF of at least 15  
  - Never leave kids or pets unattended in a vehicle  

Remember Your Fur-Babies too! As warmer summertime temperatures approach, it’s important to remember that dogs are vulnerable to injuries and illnesses related to hot weather including heat stroke, sunburn, and foot pad burns.  

- When the temperature is high, don’t let your dog linger on hot surfaces like asphalt and cement. Being so close to the ground can heat their body quickly and is also an invitation to burns on sensitive paw pads. Keep walks to a minimum.  
- Giving your dog a lightweight summer haircut can help prevent overheating, but never shave to the skin, the dog needs one-inch of protection to avoid getting sunburned  
- Provide access to fresh water at all times. Make certain an outside dog has access to shade and plenty of cool water  
- Restrict exercise when temperatures soar, and do not muzzle the dog because it inhibits their ability to pant  
- Many dogs enjoy a swim, splashing in a wading pool, or a run through a sprinkler in warmer weather can help bring body temperatures down  
- Never leave your pet in a parked car, even if you park in the shade or plan to be gone for only a few minutes. The temperature inside of a car can reach oven-like temperatures in just minutes, often in excess of 140 degrees. That quick errand can be a disaster and could be fatal for your pet.  

The Mayor’s Corner  
Summer is here, school is out and the class of 2017 has walked that important walk across the stage. Congratulations to all the graduating seniors! You worked hard to get where you are and we are proud of each and every one of you!  

As the weather heats up, the summer fun planning begins. Trips to the beach, picnics, family gatherings and outdoor fun. My family makes an annual trip to the beach that we enjoy immensely. With so many folks on the road and enjoying outdoor activities, there are many things to see and do. Have fun, but remember to be safe!

June 21—OWLS Luncheon/Picnic—Special Location: Shackleford Park—11:30 am

Auburn Public Works Around Town

“It’s That Time of Year—Auburn Farmer’s Market
Beginning in June, the Auburn Farmer’s Market will resume at the Burel Park Pavilion. The Farmer’s Market will run every Wednesday from 1:00 to 6:00 pm from June through October. Have a garden this year that provided a bountiful harvest? Come out and set up a table to sell your excess! This would be a great time to think about getting a plot at our Community Garden behind City Hall.

If you are interested in becoming a vendor at the Farmer’s Market, please contact parksdirector@cityofauburn-ga.org for an application.
