BARROW SCHOOLS REGISTRATION

Registration is crucial for the school district to accurately plan for class sizes, staffing, and resources. By registering your child you can help us provide the best possible learning experience for all students.

To register your child, please visit the Barrow County Schools' official website and complete the online registration form. Ensure you have the necessary documents, such as proof of residence, immunization records, and your child's birth certificate, available to upload during the registration process.

Should you have any questions or concerns regarding registration, please reach out to your child's designated school for further assistance. Let's work together to make this upcoming academic year a successful and memorable one for all our students!

The Explosive Month of July

Explosive fireworks light up the sky as Americans celebrate their independence, while French revolutionaries storm a prison, proving they take "jailbreaks" seriously.

Moonwalkers claim "one small step for man, one giant leap for mankind," making conspiracy theorists quiver.

Meanwhile, World War I starts with Austria-Hungary declaring war on Serbia, stirring up more drama than a reality TV show.

And on a lighter note, it's Nelson Mandela's birthday, reminding us to fight for justice and equality, not just blow out candles.

Happy July!

Water Rate Increases Coming in August

We want to inform you about an important development concerning our water rates. Starting this August, there will be an increase in the cost of water services provided by Barrow County, our water supplier. This decision has been made in response to various factors, with the primary consideration being the Consumer Price Index (CPI).

The Consumer Price Index is a metric that measures changes in the average prices of goods and services over time. It serves as an indicator of inflation and allows adjustments to be made to different costs, including water rates. By using the CPI as a reference, Barrow County aims to ensure that the water rates accurately reflect the prevailing economic conditions.

We understand that a water rate increase may pose challenges for residents, and we empathize with any concerns or frustrations this news may bring. However, it is crucial to recognize that this adjustment is essential to ensure the long-term sustainability and reliability of our water supply. By investing in our water infrastructure and addressing the increasing costs of providing water services, we can maintain a high standard of service and meet the demands of a growing population.

We want to assure you that more detailed information regarding the upcoming water rate increase will be available after the first week of July. The City of Auburn authorities will provide updates and answer any specific questions or concerns you may have. We encourage you to stay informed about this change and plan accordingly to accommodate the revised water rates in your budget.

Updated Information will be available July 7th via the City of Auburn Facebook page or by reaching out to our customer service team at City Hall (770)963-4002
